Offer & Request

Joint cooperation on international projects. Outsourcing co-operation and technical co-operation

Vojvodina Metal Cluster (VMC) is a Business Association for improving metal sector competitiveness in Vojvodina. It gathers 150 members at present (80% are SMEs and 20% are institutional supporters). VMC members employ 6500+ workers, have 300+ billion EUR of annual income (where 80+ billion EUR are export originated) and 75% of VMC's SME members possess ISO certificate.

VMC is organized in four sectors/centers:

1. Business support center;

2. Center for Innovations and technology transfer;

3. Center for Project Development, and

4.Education Center.

The most important products and services of VMC's members are in the following areas: all kinds of metal processing, metal constructions and metal parts, process industry, systems for water supply, agricultural machinery, special-purpose industrial machines, casting, forging and pressing, etc.
