Bilateral Meetings

- Wednesday 12:00 - 14:00

Description

Description The company was founded in 2007 in Selenca. The main activity is the processing of fruit and vegetables. The company started as a small family business and today employs a large number of people in a modern factory for processing fruit and vegetables. About 60% percent of products are exported to the European market, as well as to the Australian market, the USA, Japan and Canada. Investment in the latest technology allows continuous supply and production, regardless of the season. Company is accredited and certified by the leading national certification bodies for organic production, including the European Union Council Regulation (EU2092 / 91).
