Description

EMKA BEKTO is a company with decades of business experience in the production of highly sophisticated industrial tools for plastic and non-ferrous metals, combinations of metal-plastic, as well as many products that spraying of plastic which are widely used in many industries and everyday use in life. EMKA BEKTO has grown into a company of European format which covers more than 50,000 square meters, over 200 modern machines and whose factories employ about 400 people. In our plastic facility, we inject numerous parts for reputable market leaders of the automotive and sports industry like HELLA, NORMA GROUP, VERITAS AUTOMOTIVE, PASS, PROMOTECH, TE Connectivity, Fischer. With a fully comprehensive system of production, from an idea to the final product, it has become unique in the entire region of Southeast Europe. Previously having to deal with multiple vendors for certain products, our customers now have everything in one place: quality, fast production and under very favorable conditions. Our vision and strategy are to offer customers the best service and products by establishing an individual approach to each customer and based on the recognition of their specific requirements and needs of the opportunity we have in the most optimal way to meet their demands and orders. Product quality and customer satisfaction is our greatest satisfaction. EMKA BEKTO is the synonym for reliability, trust, quality, and success.
