Bilateral Meetings

- Wednesday 12:00 - 14:00
- Wednesday 15:00 - 17:00

Description

Institute of Food Technology (FINS) is one of the leading research institutes in the field of food and feed science and technology and dissemination of knowledge in Serbia and South Eastern Europe. Our research and the business strategy are consistent with national and European strategy of research and development priorities in agriculture and food areas. The main guidelines of this strategy include the advancement of knowledge in sustainable food production management, production and exploitation of biological resources and the development of new technologies and products in the food chain.

Our researchers collaborate with colleagues from business and industry in many ways with the aim of applying the latest knowledge in the process of food and feed production. The general goal is to improve the quality and safety of food and feed products and to increase their competitiveness in domestic and global markets
